+91 95000 90288 | ramanarayanan.gs@email.com | LinkedIn Profile | Github Profile

SUMMARY

Electronics and Communication Engineering student passionate about Electronics, IoT, and Automation. Skilled in Python and C, with practical experience in developing sensor-based IoT applications and intelligent electronic systems. Strong analytical thinking, problem-solving abilities, and collaborative teamwork skills

EDUCATION

Rajalakshmi Engineering College

B.E in Electronics and Communication Engineering

Thandalam , Chennai, TN

2024 – 2028

Velammal Vidhyashram

Higher Secondary Education

Guduvanchery, chengalpattu, TN

2022 – 2024

TECHNICAL SKILLS

Programming Languages: Python, C, SQL

Tools & Platform: Arduino, ESP 32, MATLAB, VS Code, Git/GitHub, MS Office

PROJECTS

Smart Gas Leakage Protection System

IoT-Based Safety & Automation System

Apr 2026

ESP32, MQ-5 Sensor, Servo Motor

- Built an IoT-based gas leak detection and automatic valve control system using ESP32, MQ-5 sensor, and servo motor
- Integrated real-time SMS alerts and emergency shutdown mechanisms for enhanced safety.

Edge-Based Pothole & Road Hazard Detection

Edge AI & Computer Vision System

Feb 2026

Python, Raspberry Pi, OpenCV, TensorFlow

- Developing an edge AI solution using Raspberry Pi and ML models for real-time pothole and road hazard detection.
- Focused on low-latency local processing for improved road safety.

EXPERIENCE

Quality Engineering Intern

TVS Sensing Solutions

June 2026

Madurai, TN

- Conducted quality inspection and testing of Wheel Speed Sensors (WSS), Side Stand Sensors, and Gear Position Sensors
- Supported sensor validation and quality control processes to ensure compliance with product specifications
- Managed inspection reports, production records, and data entry activities for quality tracking and documentation

CERTIFICATIONS

- IoT Course - NPTEL
- 1st Place – “Relay Tionship” Technical Event, SSN College of Engineering
- Advanced FPGA Processing Workshop
- 3D Printing, IoT and Drone Design – Hands-on Training Programme
